DATA ANALYTICS

WHAT IS YOUR DATA TRYING TO TELL YOU?

Spot potential problems or opportunities you might've overlooked With a Data Analytics

Why a Data Analytics Solution?

A Data Analytics solution can help your organization by bringing analytics to where your data lives. With Microsoft SQL , Oracle and Database services from En Pointe IT Solutions your organization will be able to quickly uncover and share actionable data insights when and where you need it.

Eliminate Data Movement
Save time and expense with in-database analytics that doesn't require moving data to a seperate environment.

Analyze Big Data
Compute billions of rows of data using in-database and parallelized processing. No additional servers or hardware needed.

Write Once, Deploy Anywhere
Write data analytics models and deploy on-premises, in the cloud, or even to Linux and Hadoop Systems.

Application Integration
Deliver analytic results to enterprise applications for viewing, reporting or further processing.

Maintain Data Security
Because there's no data movement, your data will remain within your existing infastracture security.
