En Pointe IT Software Management

THE PROBLEM ⚠️

- **Asset Management Gaps:** Leading to security risks, compliance breaches, and system downtime.

- **Financial Inaccuracy:** Complicating reporting and capacity planning.

- **Underutilized Office 365 Resources:** Resulting in inefficiency and wasted potential.

- **Inconsistent Procurement:** Varied processes across publishers, causing inefficiencies.

- **Inefficient Chargeback Systems:** Lacking consistency in tracking license ownership.

THE SOLUTION 💡

En Pointe IT Software Management:

- We implement a strategy to optimize and reclaim unused software licenses across multiple publisher estates, improving resource allocation, cost efficiency, and savings.

- We establish clear stakeholders and processes to validate and verify software license ownership, ensuring compliance, cost control, and strategic planning.

EN POINTE IT SOLUTIONS Making Technology Work for You ⟷ **En Pointe IT**SM

Contract Management & Consolidation:

- We provide enhanced processes for more efficient purchase order placements.

- We negotiate multi-year and volume licensing agreements to reduce costs and streamline renewals.

OUTCOMES 📊

Cost Savings and Efficiency Improvements:
We can help you achieve significant cost savings, cost avoidance, and improved cost control—ensuring a lean and cost-effective IT environment.

Compliance and Risk Management:
By clearly defining stakeholders for license ownership, consulting with experts, and enhancing license management practices, we help you minimize risks of non-compliance penalties, audits, and legal issues.
