

Strategic Data Center Solutions

We deliver onsite hardware maintenance for server, storage and network equipment to help customers maximize uptime, improve service and save up to 70% over OEM support costs.

IT teams can manage assets, view service ticket activity, monitor hardware and automate support within our ExpressConnect® platform. We offer OEM warranty uplift and post warranty data center maintenance.

We work together with you to provide comprehensive, cost-effective, global data center solutions to our mutual customers.

See a complete list of our supported products [here](#).

ExpressConnect®

Simplifying Data Center Support

Our maintenance offers advanced support for hardware monitoring with automated ticketing, online account management, and integrations with monitoring and ticketing systems.

ExpressConnect® Monitoring

Real-time hardware alerts and automated support

ExpressConnect® Ticketing

Place tickets, track status and view service history

ExpressConnect® Integrations

Streamline workflows by integrating with PRTG, ServiceNow, SolarWinds and more

ExpressConnect® Account Management

Manage coverage and agreements in one central location
